

Problem C. Votação

Time Limit 2000 ms

Problem Statement

We have N voting papers. The i -th vote ($1 \leq i \leq N$) has the string S_i written on it.

Print all strings that are written on the most number of votes, in lexicographical order.

Constraints

- $1 \leq N \leq 2 \times 10^5$
- S_i ($1 \leq i \leq N$) are strings consisting of lowercase English letters.
- The length of S_i ($1 \leq i \leq N$) is between 1 and 10 (inclusive).

Input

Input is given from Standard Input in the following format:

```
N
S_1
:
S_N
```

Output

Print all strings in question in lexicographical order.

Sample 1

Input	Output
7 beat vet beet bed vet bet beet	beet vet

beet and **vet** are written on two sheets each, while **beat**, **bed**, and **bet** are written on one vote each. Thus, we should print the strings **beet** and **vet**.

Sample 2

Input	Output
8 buffalo buffalo buffalo buffalo buffalo buffalo buffalo buffalo	buffalo

Sample 3

Input	Output
7 bass bass kick kick bass kick kick	kick

Sample 4

Input	Output
4 ushi tapu nichia kun	kun nichia tapu ushi
